A NEW WAY
TO LOOK AT
SURFACES: AS
PARTS OF A
WHOLE, OF YOUR
SPACE, OF YOUR
OWN EXPERIENCE.

WHO WE ARE

ENVISIONING SURFACES AS A BLEND OF BEAUTY AND PERFORMANCE.

We are an Indo-Italian company who brought up **a new perspective on tile design**, for those who understand the role of **beauty as a well-being enabler in life**.

Our sintered surfaces, conceived as a unique blend of beauty and performance, are designed to suggest **a holistic vision of the space**.

Each surface is the result of the ability of our designers to connect with any source of inspiration and bring unique products to life, which **elevates the personality of a space**.

We operate differently, innovating in the way we see and do things. We stand by our customers throughout the journey, ensuring every surface reflects their vision and enhances designed space.

Our way is a new way to look at surfaces: as parts of a whole, of your space, of your own experience.

COMMITMENT TO QUALITY

To achieve the highest quality standards we combine over 50 years experience with ongoing research, development of materials, state-of-the-art technology, sophisticated manufacturing processes and significant resources for continuous improvement.

The result of this philosophy is the **Nexion formula**, thanks to which all our surfaces and collections are designed to have a **superior quality** and stand out for their superior aesthetics and technical characteristics.

REACH

We are a **global brand born from the blend of two great cultures, fueled by a vision that extends beyond borders**, to share our way of working in different countries.

Our **main strategic value chain activities** are based **in Italy**.

Our **top quality production** is located **in India**, into a fully automated state-of-the-art facility equipped with the latest Italian machineries.

Our sales network focuses on specific high-potential and high-value target markets **all over the world**.

PEOPLE

We nurture our strong **multicultural vocation**, generated by the blend of different backgrounds, both cultural and professional, coming together.

Our people give life to a successful and well integrated team with some of the **top talent of the Italian and Indian cultures, both rich in history, tradition and values**.

Everyday, **over 500 people** use their passion, enthusiasm and highly specialized skills to turn the important targets we have set for ourselves into positive results.

A MODERN
SYNTHESIS BETWEEN
AESTHETIC RICHNESS
AND TECHNICAL
CAPABILITIES.

INTERPRETING THE FINEST MARBLES IN LINE WITH THE NEEDS OF CONTEMPORARY ARCHITECTURE.

Thanks to an **in-depth study** we devised many designs and surfaces that interpret **the finest natural marbles** with **new high-tech features**, in line with the needs of **contemporary architecture**.

Our **sintered marbles** distinguish themselves for their rare beauty, able to give back all the flavor of marbles that have always represented **the maximum degree of exclusivity** in the construction field, designed and developed for the most refined tastes.

Nexion sintered marble is **a modern synthesis of aesthetic richness and technical capabilities**, highlighted even more by the multiple variations of surface finishes, striving to obtain the right perceptive effect according to its own design context.

SUPERIOR AESTHETICS

We select the best Italian creative minds to find the **finest inspirations to create a new range of refined sintered marbles that perfectly reinterpret natural and artificial materials**, with a stylistic accent that stands out for a sophisticated contemporary taste.

INNOVATIONS IN SURFACE

We have always worked on research and development of surfaces, trying to identify ourselves with design approaches. This approach allows us to create optimal aesthetic with superficial patterns & structures that allow our clients to perceive our product as natural, from a touch & feel perspective to its unparalleled beauty.

MIRROR-LIKE REFLECTION

Sintered Marble blends the design of natural marble with a mirror-like capability to reflect light. Thanks to this unprecedented solution, our surfaces achieve an almost perfect mirror-like reflection with no distortion or waves in the light reflection of any objects. We are one of the few companies in the market to use the precious dry granula to enhance our product's color nuances, details and wave-free visual impact.

INNOVATIVE SURFACES

Every space deserves to be enhanced with a precise idea of beauty.

Believing in this, we have carefully studied the most refined techniques of artisanal marble processing and reinterpreted them with cutting-edge digital technologies.

This has allowed us to create five unique surfaces (**Full Lappato, Lappato Matt, Soft Naturale, Naturale, Spazzolato**) and three distinct textures (**Rigato, Pettinato, Bocciardato**) enabling a wide variety of optical and sculptural sensations for any look.

The result is a range of choices that opens a new era for interior design floors and walls, establishing us as a unique Surface & Textures driven brand worldwide.

Full Lappato is the most notable marble surface in interior design. With mirror-like reflection achieved through dry granular, and superior glaze quality with masterful polishing process, this surface accentuates the graphics and depth of fine marble slabs without any distortion.

Lappato Matt offers a contemporary interpretation of marble surfaces, characterized by its absence of reflection and soft touch, due to the dry granular and polishing process.

Soft Naturale elevates to a new level of transparency and refinement, which enhances both visual appeal and tactile experience, ensuring superior performance.

Naturale is appreciated for its well-defined softness, and its superior technical performances make this surface suitable for different flooring options from residential to high traffic commercial spaces.

Spazzolato stands out with its softness, enhanced by delicate hollow and relief engravings typical of real marble. This surface creates a new visual effect with tactile consistency, amplified by grazing light conditions.

3D TEXTURES

Combining the careful study of the most refined **techniques of artisanal marble processing**, with the use of cutting-edge technologies, we have developed 3D surface textures that enhance the qualities of the natural marbles of inspiration, giving the surfaces **captivating optical and sculptural qualities**.

RIGATO features very close parallel lines running along the surface, offering a highly suggestive tactile and visual appeal.

PETTINATO replicates a craftsmanship technique that imparts a distinctive 3D effect to the surfaces using rigid bristle tools during the material's solidification phases.

BOCCIARDATO emulates the results of **manual bush hammering**, a technique highly valued since ancient times. It gives the surfaces a slightly corrugated appearance, closely resembling natural stone.

Tiles are packaged in a random manner and company cannot guarantee the type of faces inside each package.

Nexion installation suggestions

Nexion recommends 2 mm joint for optimal aesthetics taking advantage of the tile's caliber in multi-sized applications. Both cement and epoxy grout can be used; grout-design color matching advisable for optimal aesthetics. It is not recommended to use grouting with colored pigments in contrast with the color of the tiles. For detailed installation guidelines log on www.nexiontiles.com

Size	
Nominal Size cm	Actual Size cm
120x240	119,8x239,8
120x180	119,8x179,8
80x160	79,8x159,8
120x120	119,8x119,8
60x120	59,8x119,8
