A NEW WAY
TO LOOK AT
SURFACES: AS
PARTS OF A
WHOLE, OF YOUR
SPACE, OF YOUR
OWN EXPERIENCE.

WHO WE ARE

ENVISIONING SURFACES AS A BLEND OF BEAUTY AND PERFORMANCE.

We are an Indo-Italian company who brought up a **new perspective on tile design**, for those who understand the role of **beauty as a well-being enabler in life**.

Our sintered surfaces, conceived as a unique blend of beauty and performance, are designed to suggest a **holistic vision of the space**.

Each surface is the result of the ability of our designers to connect with any source of inspiration and bring unique products to life, which **elevates the personality of a space**.

We operate differently, innovating in the way we see and do things. We stand by our customers throughout the journey, ensuring every surface reflects their vision and enhances designed space.

Our way is a new way to look at surfaces: as parts of a whole, of your space, of your own experience.

RE-INTERPRETING THE ARCHITECTURAL USE OF CONCRETE

Riga, "line" in Italian, one of the fundamental signs of design. RIGA, acronym of **Research and Inspiration from Graphic and Architecture, re-interpreting the architectural use of concrete.**

The product of creativity and technology.

Created by skilled craftsmen who manually made carved concrete walls looking for the beauty of repetitive patterns full of human imperfections. Manufactured using the laser micro-carving technology to carefully engrave these man-made patterns on a large-size ceramic surfaces.

Four interpretations of this design concept, with lines (Rigato), stripes (Striato), squares (Quadri), and flatness (Planum), to be used alone or together to create **visually rich patterns** and convey a natural, vibrant full-empty sculptural effect, through the interplay of texture and light.

THE RANGE

6 COLORS
4 STRUCTURES

The architectural attitude of concrete comes to life in six basic colors designed both to function independently and to mix harmoniously with each other. Four structures add expressive intensity to the surfaces, intricately captivating and reflecting light and, creating sculptural effects that continuously evolve.

NEXION INSTALLATION SUGGESTIONS
Nexion recommends 2 mm joint for optimal aesthetics taking advantage of the tile's caliber in multi-sized applications.
Both cement and epoxy grout can be used; grout-design color matching advisable for optimal aesthetics.
It is not recommended to use grouting with colored pigments in contrast with the color of the tiles.
